# THIS IS UP SUPING

Up Suping is a media outlet based in Spain that covers the latest news on stand-up paddleboarding and foilboarding at the national and international level through its digital magazine and, since 2015, its website.

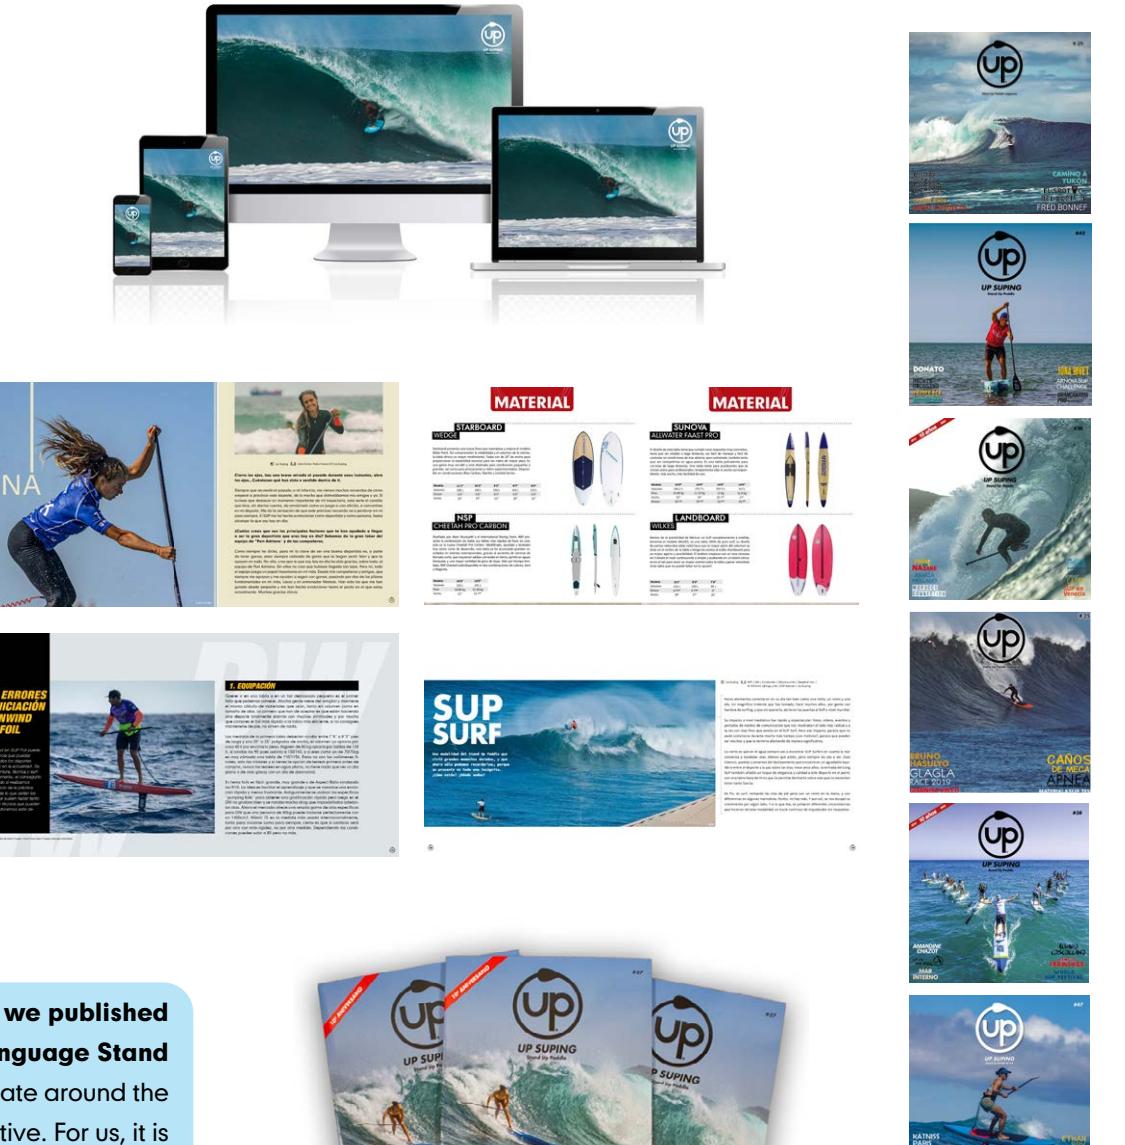

## Digital Magazine

Since Up#0 was created in the summer of 2012, it has become a magazine with a wide range of content, **including news, interviews, articles on national and international events and championships, photographs and much more**. Its digital format makes it accessible to all audiences immediately. It can be viewed perfectly on today's most widely used digital platforms, such as computers, tablets and mobile phones; from the Issuu portal, where all our issues are available, it is perfectly adapted for comfortable reading.

The magazine has been published in Spanish since 2012, and we began publishing it in English in 2017 with the aim of reaching a wider audience around the world. Most of our readers come mainly from **Spain, France, Portugal, the rest of Europe, the USA, Latin America and Australia**, among others.

All editions are always available on our social media and website.

In 2022, we celebrated our **10th anniversary** by fulfilling a dream: **we published issue Up#37 in print format, making it the first Spanish-language Stand Up Paddle magazine in this format**. Today, it continues to circulate around the world as a special edition, and the feedback has been very positive. For us, it is another sign of growth and commitment to this great sport. It gives us a boost of energy to continue working and enjoying ourselves.
